[BY THE ASSOCIATED PRESS-P.M.]

IBY THE ASSOCIATED PRESS—P.M.]

NEW YORK, Dec. 12.—A headless human skeleton and dorsal vertebraserts played an important part in the trial of Nan Patterson for the murder of "Caesar" Young today. The grewsome exhibits were made use of in the examination of Dr. Philip O'Hanlon, the Coroner's physician, who performed the autopsy on Young's body. Miss Patterson's counsel protested at the Lee of the skeleton, assecting that it did not compare correctly with the structure of the dead man's body, but his objections were oversuled.

The skeleton was used to decide the course of the bullet after it entered Young's body. The prosecution contended that it had gone straight to the spine, which the State lawyers believed proved that Young did not kill himself.

himself.

Assuming that Young, with the pistol in this right hand, had crossed it over his chest and shot into his left side, the prosecution contended that the bullet would have traveled to the left. The fact that it flew straight inward to the spine was advanced as proving that the wound was not self-inflicted.

When Levy asked Dr. O'Hanion if he had not at first declared the case to be a suicide, the prosecutors objected, and the objection was sustained.

NEW YCRK, Dec. 12.—There was another opening smash in prices to-day, the trouble again centering in Amalgamated Copper. Heavy unloading of that stock carried it down 4½ points, and 20,000 shares of United States Steel sold down an extreme 1½ on running sales. St. Paul dropped two points, and there were opening losses all the way from 1 to 1½ in the leading Pacifica, grangers, coalers, trunk lines and specialites. The market fluctuated unevenly after the opening, and then went lower. The London prices for American securities before the opening here were generally higher, and gave no hint of the storm hanging over this market.

Though nothing like last Thursday's demoralization followed, nevertheless the feeling was one of vague alarm, Traders seemed to be of the opinion that last week's liquidation had not yet exhausted itself, and it was clear that a great number of accounts were

EW YORK, Dec. 12.-[Exclusive Dispatch.] As the res of a big scandal following the attempted six-million-dollar "steal" from the city, Greater New York is likely to have its own gas plant in the comparatively near future. The exposé has brought a tremendous storm of indignation down upon Mayor Mc-Cicilan and Controller Grout. The Controller changed front completely today, and announced that he would refuse to pay bills and gas trust to sue for its money, and thus give the courts a chance to pass on what is a fair price for municipal lighting, which is costing nearly 100 per cent, more than in many other cities.

Tammany, seeing the approaching disaster, inspired Mayor Me Clellan today to state that he would proceed to issue bonds for a municipal gas plant at once, if the corporation counsel

The National Association of professional baseball clubs tomorrow possibly will break way from two big leagues, unless the demand is acquiesced in. The following table of prescriptions has been members.

To increase the length of the pitcher's distance from the batter.

To modify the foul-strike rule.

To return to the old time rule of allowing a batter to call for a high or low ball. In that event, the strike for a "low ball" batted, would pass over the plate-between the batter's knees and hip, while for "high ball," the Batter ball would have to pass between the shoulder and hip.

To count as strikes only such deliveries as pass over the plate at a height batween the shoulders and hip.

POLE CASE IN PENNSYLVANIA.

[BY THE ASSOCIATED PRESS—AM]

WASHINGTON, Dec. 12.—The Supreme Court of the United States today decided the case of the Western Union Telegraph Company vs. the Pennsylvania Rallway Company, involving the right of the telegraph company to condemn a part of the railroad right of way in Western Pennsylvania and appropriate it for its lines, in opposition to the telegraph company; contentions. POLE CASE IN PENNSYLVANIA

(BY THE ASSOCIATED PRESS—A.M.)
HONOLULU, Dec. 12.—{By Pacific Cable.} To the Federal grand jury now investigating charges of irregularity in the last election, Col. Curtis, H. Iagkea, a prominent Home Ruler, said today that it was his intention to go to Washington for the purpose of contesting the seating of Prince Jonah K. Kalatanaole, who was reflicated Delegate to Congress by a majority of 2000 over the combined vote of his oppopropriate it for its lines, in opposition to the telegraph company's contentions. This is a second case id the controversy between these companies. The case was decided against the telegraph company.

The opinion was handed down by Justice McKenns. In the decision, the court held that the Congressional Act of 1868, which controlled in the case, does not grant eminent domain to telegraph companies over the private property of railroad companies.

The mist decision in the Western Unjon shows that the case involving the right of the railway company, to remove the telegraph company's poles originated in New Jersey. Justice McKenna said that the telegraph company contends that the recessary involving contends that the recessary involved.

the rights-of-way of railroad in in-victum upon paying just compensa-tion in other words, that the act in-vests telegraph companies with the right of emisest domain. The railroad company, he said, asserted that the act gives the consent of the govern-ment to telegraph companies to con-struct lines, through the public high-ways and over and along its military and post roads which are not the

of compensation.

"It follows from these views that the act of 1896 does not grant the right to telegraph companies to enter upon and occupy the rights of way of railroad companies except with the consent of the latter, or grant eminent domain. Nor does the statute of New Jersey make those rights of way public property, so as to subject them to such occups the new property, as as to subject them to such occups the new property of the purser he wanted to reach San Francisco, and offered \$26 for the fare, act of 1886. RUMOR OF A MERGER.

NEW YORK, Dec. 12.—[Exclusive Dispatch.] Wall street has heard tory from out of the West that ther

story from out of the West that there is to be a merger in the near future of the Western Union and Postal companies. The purchase of \$25,00,000 of Missouri Pacific bonds by Kuhn, Loeb & Company was the basic point for the rumor. The firm in question is the fiscal agent of the Pennsylvania Railroad. George J. Gould in the mainstay of the Missouri Pacific.

Gould and Pennsylvania had, some time ago, a little war which ended in the Postal Telegraph Company getting the use of the Pennsylvania road's poles and wires, which for years had been used by the Western Union. The western story is that the purchase of Gould-road bonds by the Pennsylvania's facal agent means that there will be a truce, and that there will be either a complete merger of the Postal and Western Union or the companies

SAN FRANCISCO, Dec. 11.—Arguments of an additional district judge for the Northern District of California for the Northern District of California as a means of relieving the present intolerable block in litigation in the Circuit Court are contained in a memorial and resolutions adopted for presentation to Congress at a special meeting of the Bar Association of San Francisco. The present situation is intolerable, and in some cases amounts to a practical denial of justice, say the memorialists.

In the resolutions which accompany the memorial, the proposal to divide the northern district into different districts, or into different divisions of a district, with separate judges, clerks and other officers is strongly opposed. SAN FRANCISCO, Dec. 12.—The Southern Pacific Company's Ogden-Lucin cut-off across the Great Sait Lake has now been in operation long enough to permit the operating department to gather figures justifying the expenditure of the many millions which the big improvement cost. The cut-off is saving the company on an average \$2500 a day in operating expenses, or a little over \$900,000 a year, and this amount will steadily grow as the traffic over the Ogden line increases. Interest charges growing out of the construction charges growing out of the construction of the cut-off are \$340,000 a year. The operating officials of the Southern Pacific are watching with much in-

terest certain experiments now being conducted on the Union Pacific with the use of gasoline motor cars. The gasoline motors are designed for use on spur lines, and it is said that if they come up to expectations, they will be employed on the Southern Pacific as well as the other Harriman lines.

Dispatch.] Hon. James C. Needham, beginsentative in Congress from the Sixth California District, was today appointed a member of the House Ways and Means Committee by Speaker Cannon. It had been generally understood that Needham would get this place ever since Representative Metalf resigned his seat in Congress to go into the President's Cabinet, but there were so many other aspirants that the thing could not be regarded as settled until actually announced. At the same time, Speaker Cannon announced the appointment of Representative Knowland of Oakland as a member of the House Committee on Coinags, Weights and Measures.

Representative Needham was spointed to this high place in the affairs of the House of Representatives for two reasons: One is that he is and has been a faithful, hard-working Representative, who has not felt called upon to set off skyrockets every time he has been a faithful, hard-working Representative, who has not felt called upon to set off skyrockets every time he has abeen a faithful, hard-working Representative, who has not felt called upon to set off skyrockets every time he has abeen as faithful, hard-working Representative, who has not felt called upon to set off skyrockets every time he has abeen as faithful, hard-working Representative, who has not felt called upon to set off skyrockets every time he has abeen as faithful, hard-working Representative, who has not felt called upon to set off skyrockets every time he has been a faithful, hard-working Representative, who has not felt called upon to set off skyrockets every time he has abeen a faithful, hard-working Representative with substitute of the felt of the seven presidents of the Sevent were polygamists. President Smith was quoted by the winess as saying that he could not give up any of his wives; that it meant eternal damnation to abandon a multiplicity of wives.

Dr. Buckley said he had made inquiry concerning Senator Smoot, and he had found no one who said one word against him. Everywhere, the witness said, Senator Smoot was given an excellent character.

On cross-examination, Mr. Worthington brought out that the statements quoted from President Smith's speech had not been reduced to writing until a day or two later.

George Reynolds, a Mormon living in Sait Lake, testified that he is the first assistant superintendent of the Mormon church Sunday-school and secretary of the Missionary Committee of the Apostles and formerly clerk or recorder of the Endowment Rouse. This relation was severed in about 1871. Mr. Reynolds told the committee that he has given certificates of marriage since he cessed to be recorder of the Endowment House in cases where widows asought to obtain pensions. He made the certificates from records in his possession, but these records, he said, had since been removed to the temple, and he has not access to them now.

In answer to questions by Senator Overman, Mr. Reynolds said marriages were performed with dead persions in the Endowment House.

The church grants divorces to those who have been married for time and eternity, but does not divorce legal marriages until the courts have acted," said Mr. Reynolds, "Plural marriages are not recognized by court, and therefore the church does not divorce legal marriages until the courts have acted," said Mr. Reynolds, "Plural marriages are not recognized by court, and therefore the church from dead persons of such marriage."

Senator Foraker asked if such divorces are granted from dead persons, "In a few instances only I should say," said the witness.

SHORT SESSION WON'T PERMIT.

WASHINGTON, Dec. 12.—[Exclusive
Dispatch.] Doubt was expressed by
some of the best informed members of some of the best informed members of Congress at the White House today whether legislation conferring increased power upon the Interstate Commerce Commission can be enacted at the present session. In addition of definite opposition to any measure of the kind, there also has developed a difference of opinion among some of the committee of the committee of the committee and the committee of the committee and the committee of the committee arose when the House in the committee arose whe

those friendly to the proposition as to how best to carry the recommendations of the President into effect. The President is deeply in earnest in his desire that such legislation as he has recommended be enacted, but he appreciates the difficulty of securing its enactment at the short session of Congress.

Senator Culiom of Illinois and Senator Ankeny of Washington talked briefly with the President today. Senator Culiom said that such legislation as the President today. Senator Culiom said that such legislation as the President had recommended had been considered by the Intersate Commerce Committee of the Senate, but it had never gotten beyond the stage of consideration in the committee. It never even had been reported to the Senate from committee. He did not believe it would be possible to enact the proposed legislation at this session.

EXPLANATION OF BILL.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Dec. 12.—In explanation of the bill, Mr. Heyburn said that it was directed at the evil of adulteration of foods and drugs. Every State had enacted a pure food law, covering in its general purpose the scope of the proposed legislation. He declared that some of the most injurious articles coming from foreign countries were manufactured in violation of the domestic laws of those countries, but prosecution was evaded because the goods were made especially for American trade.

goods were made especially for American trade.

Mr. Stewart of Nevada said that to secure the best results, sufficient money should be given to the Secretary of Agriculture to make a proper investigation and publish the results to the whole world. Frivate parties, he said, particularly the press, would not publish an expose of the frauds in foods and drugs, because the "patronage is on the other side."

Messrs. Heyburn and McCumber of North Dakota made an earnest plea for early action on the bill, the latter deploring the fact that in four years the pure food advocates had been unable to secure a vote.

PHILIPPINES BILL.

At 2 o'clock, the Philippine Govern-

ippine Commission should not be au-thorized to make such guarantees. Replying to a suggestion by Mr. Newlands of Nevada, that the Philip-

ment of governmental ownership of the proposed road because, if unsuc-cessful, government ownership of rail-roads in the United States need no longer be considered.

Mr. Newlands quoted the views of

velt regarding the Philippine question, and asserted that the only difference between the two utterances was that Bryan would give today the "assurance" of ultimate independence, while the President only extends the "hope," PRESIDENTIAL NOMINATIONS.

Mr. Hill said we must get back to the gold standard, which he learned from very high authorities had been "irrevocably established."

Mr. Williams of Mississippi said there was an uniture at work to displace government-provided money with bank-provided money, and thereby enable the banks to make the profit on it. During a heated colloquy with Mr. Hill, Mr. Williams said the bill under consideration would double the possibility of the perpetration of "iniquitous wrong." He predicted that it simply would lead to Socialism.

The bill then was laid aside, after being made a continuing order after the Swayne resolution, the special order for tomorrow.

CASSIE OVERWHELLMED.

[BY THE ASSOCIALED PRESS—P.M.]

NEW YORK, Dec. 12.—Mrs. Cassle L. Chadwick was overwhelmed by the developments of her case in Cleveland today and the statement was made by one close to her that she would probably give up the fight here and return to Cleveland tomorrow night in the custody of United States officers. She did not anticipate the double indictment which was found against her by the Cuyahoga county grand jury after the fallure of the Loraine county grand jury to find probable cause of action. Mrs. Chadwick is of the opinion that if she must face these charges she will be far better off in her home city than in New York. It is known that her counsel have strongly advised against his course of procedure, but Mrs. Chadwick insisted that she be given free rein.

this course of procedure, but Mrs. Chadwick insisted that she be given free rein.

In case this plan is carried out, Mrs. Chadwick will motify. United States Commissioner Shields tomorrow through her counsel of her desire to waive examination and go to Cleveland without further formality. Mr. Shields will then sign the necessary papers and deliver them to United States Marshal Henkel, who will personally take the woman to Cleveland on the earliest possible train.

Philip Carpenter of her counsel tonight said: "I think it possible that Mrs. Chadwick may go to Cleveland tomorrow or Wednesday."

He refused to discuss the indictments found against his client in Cuyahoga county, simply saying: "Mrs. Chadwick is not fearful of the result. She is entirely innocent of any crime."

It was said at the residence of Andrew Carnegie tonight that he would be unable to go to Cleveland to testify in the Chadwick case owing to illness. Carnegie is indisposed, with an attack of lumbago, and his physician is of the opinion that it would be inadvisable for him to take the trip.

Mrs. Chadwick spent most of the lay in conference with attorneys. She saw her own counsel, Messgs. Carpener and Powers, several times and also and a long talk with George Ryall, attorney for Herbert D. Newton of Brookline, Mass.

Mrs. Cassie L. Chadwick increased at a rapid rate today. She was twice indicted by the grand jury of Cuvahoga county, and her old-time friend. Ira Reynolds, took the stand and made evident his intention to shield and protect her no longer.

The aged secretary of the Wade Park Bank presented a pathetic picture as he answered question after question, which brought out his implicit faith in the woman whose financial transactions have well-nigh ruined him in fortune and caused him such infinite trouble. He gave evidence, too, that he still believes his trust was justified. Only one query he attempted to evade. This was when he was asked how much of his personal estate had passed into the possession of Mrs. Chadwick. His eyes filled, and he requested that he be excused from answering. The question was not pushed.

The formal indictments voted against Mrs. Chadwick this afternoon are based, one upon the Carnegie note for \$50,000, which was made payable at the office of Andrew Carnegie in New York, and the other upon the Carnegie note for \$50,000, which was nayable at the National Bank of Commerce in New York. Under each indictments re two counts, one charging forgery, the other uttering of forged paper. Information of the indictments was at once wired to New York by County Prosecutor Keeler, and he requested that Mrs. Chadwick be immediately rearrested if she secured bail on the other charge hanging over her.

CLEVELAND, Dec. 12.—The grand jury was in session the greater part of the day and five witnesses were heard. As soon as the indictments had been voted it was announced by Prosecutor Keeler that the jury would further consider the Chadwick case and forthwith subpoenas duces tecum were issued for Ira Reynolds, secretary and treasurer of 'the Wade Park Bank, who is expected to tell of the vast amount of securities on which Mrs. Chadwick is said to have managed to obtain her many loans.

A subpoena was also issued for H. W. Bell, a receiver of Mrs. Chadwick's property, who was appointed by the State court under the action of Banker Newton of oBston, plaintiff in a suit for a large sum against Mrs. Chadwick. Both will be commanded to bring before the jurors all the securities. In their possession bearing the signature of Andrew Carnegie.

Prosecutor Keeler, after the indictment against Mrs. Chadwick had been returned, announced the hope of securing indictments against other persons who have been concerned in the affair, The grand jury will resume consideration of the Chadwick case at 9:30 c'clock tomorrow morning.

THE HALF-MILLION NOTE.

T. K. Whitney, son of one of the stockholders of the Cittzens' National Bank of Oberlin, today presented to the jury the \$500,000 note with the alleged signature of Andrew Carnegie. The note is dated two days earlier than the one for \$250,000 and is made payable at the National Bank of Comperce. There has been an absence of certainty as to the existence of such a note. With the possible exception of Mrs. Chadwick, Spear and Beck-with having had a glimpse of it, it had never been seen, not even by Whitney himself, until it was produced before the grand jury this afternoon. The note had been placed in an envelope and be held in turn, was in a second envelope and the two in a third envelope, and sealed. Some dispute between Beckwith and Spear as to the ownership of the note is understood to have arisen soon after Mrs. Chadwick desired us to straighten them out. She ownership of the note is understood to have arisen soon after Mrs. Chadwick and presented it to the bank of-

house, I think it was March 5, 1903, and said she wished to intrust to me some securities. She said she had been advised to place them in the possession of a third party and she wanted me to care for them."

This is the package that was opened last Friday night in the presence of Reynolds and Attorney Stearn by Attorney Andrew Squire. The package was produced in court and Reynolds identified the Carnegie note, the mortgage deed and the copies of an alleged trust agreement.

Continuing, the witness said: "She then handed me a paper to sign."

This paper witness did not have with him, but as near as he could remember it read: "I certify that I hold in trust for Mrs. Cassie L. Chadwick securities and a note for \$5,000,000."

Reynolds would not swear to the wording, but it was to this effect.

The note was not indorsed, but he had no doubt that the alleged maker of the note was back of the woman. The contents of the package were identified separately by Reynolds, and, at the request of the examining counsel, he marked each paper as an exhibit. The \$5,000,000 note was marked exhibit. LITTLE BANKING SECRET.

Asked as to the other transactions subsequent to 1903, Reynolds said: "There is one. It is a little banking secret, but I am willing to tell all. She came to me—I think it was in 1904—and said she had \$12,000 in paper payable at the Prudential Trust Company. If I would let her have the money she would put up United States steel bonds in the morning as coi...teral. I consulted my company, and with their consent loaned her the money. The next day, she brought a package which she said contained \$200,000 in United States steel bonds and a \$25,000 certificate which I was to hold in trust for her under these same conditions as the previous package. I held these until a month ago, when, in the presence of several genuemen, they were opened. It was about the time Mr. Newton began his suit. They contained bonds all right, but they were not steel bonds."

When asked what they were Reynolds said: "There were five \$1000 bonds of the Home Telegraph Company of Niagara, N. Y., and six certificates of the Buckeye Fish Company."

NEVER LOST CONFIDENCE.

NEVER LOST CONFIDENCE.

NEVER LOST CONFIDENCE.

Repeated efforts on Reynolds's part to close up the dealings with Mra. Chadwick met with excuse and delay. He was put off time after time, yet he did not lose confidence. He detalled one instance, that on May II. 1904, when he went to New York expecting to settle the entire affair. Mra. Chadwick was in consultation with a number of lawyers and after waiting two days he returned to Cleveland without seeing her.

He had read the trust agreement, but had never seen the signature. Mra. Chadwick had told him the original was in the package he held. He confidently believed everything would be paid, up to a week ago, and had no suspicion of anything wrong until a few days before Newton brought his suit. Then his attorney, Carver, of Boston, called at the Wade Park Bank and said that he understood he held some steel securities of Mra. Chadwick's and showed him a paper assigning all her right and title in Reynolds holdings.

Several notes of \$10,000 each, payable to Dr. Chadwick, had been taken up by Reynolds. He declared they were payable out of any moneys that might have been on credit to Mrs. Chadwick in the First National Bank of Cleveland, August 20. Some of these were paid, and in February or March, 1904, money was placed to her credit in this bank. Reynolds thought the money eame from the East to pay all these and felt assured when Judge Olcott of New York came to Cleveland and the property the control of the property to the control of the property the control of the property to t

He took it out of the Wade Park Bank, paid it, and has it in his possession. He brought the Newton debt to her attention and advised her to go East and raise the money and settle the whole affair, and he thought the winter says, because he did not have money enough to stay there two hours. "See Reynolds came away from New York he says, because he did not have money enough to stay there two hours." Then with a faint smile, as though the humor appealed to him despite his troubles, he said: "Once she wrote to me to ask if I needed belp because of the run on the bank."

This concluded the examination of Reynolds, and the hearing was put over until next Saturday for the presence of further witnesses. These, it is understood, are Mrs. Chadwick and her son, Emil. If they are not in this city by that time, the examination will be put over still further.

United States District Attorney Sullivan tonight declared that he would not insist upon the personal attendance of Carnegie at the session of the Federal grand jury Wednesday.

"If Mr. Carnegie," said Sullivan, "is unable to come, all that will be necessary for him to do is to submit a statement to the District Attorney in New York to the effect that his health will not permit him to travel. If he does that this sworn statement will go as far with the jury as his actual presence."

had passed through the clearinghouse, was the fact that they are forgeries discovered. Nearly all of them are drawn on the Los Angeles National Bank, and the telephone company has no acount there. When the bank officials notlified Manager Seety, it was soon discovered that all of the checks were forgeries, and very clumsy forgeries, at that.

The method adopted by the criminals was the same at each place. They represented themselves to be members of the telephone construction crew, and

H. KRIMMINGER, Assembly-man-elect from the Seventy-fith District, died of apoplexy at 11:55 polock hast night at his home, No. 430 West Fourth street.

The attack came without warning ate Sunday afternoon. Mr. Krimminger was along in his home, his wife because the had always taken an active part in politics in this county, and was a county of the second politics.

ling in St. Louis as a delegate, to a national meeting of the Independent Order of Forresters. About sundown Mr. Krimminger's niece entered the place and found him lying on the floor unconscious. Assistance was summoned, and he was placed upon his bed, and Dr. Davidson and other physicians were called. They said his condition was due to rupture of a blood vessel on the brain.

At no time after he was found did the patient show the least sign of re-

a delegate to nearly every Republican county or city convention. At the No-vember election he was chosen to rep-resent the Seventy-fifth Assembly Dis-trict in the Legislature, succeeding H. E. Carter, who was elected to the State

when W. B. Lukenbach, a deputy constable, saw the description given by Fred S. Brown of the man who held him up at the terminus of the Pico-street car line on Satūrday night, he decided that the footpad was the same man who attempted to rob him when he was a conductor on the Bedondo line last summer.

Accordingly, Lukenbach yesterday morning hunted up Brown and together they started on a round of the saloons to see if they couldn't spot the fellow. After a long search they located him in a liquor store on North Main street where he was drinking with two other men. Both Brown and Lukenbach instantly identified him as the man they were after and went out

NAVAL RECOMMENDATIONS.

TO HANDLE MEN To Do So Successfully One Must Acquire Self-control.

They said it was the tobacco habit that did the mischief.

"50 I gave up tobacco, but it did not help me any. I got so nervous that the men under me did not like to work for me, as I could not use them as men ought to be used. I was nervous, irritable and would find fault all the time.

"Two months ago I took dinner with some friends who gave me what I supposed was a cup of coffee. 4 They explained that it was Postum Coffee, and my friend's wife said that she had used it about sfx months, sud that during that time had no headache such as she was formerly subject to, and that she felt so well all the time. That evening I took a package of Postum home with me, and began using it.

"The result proved that the doctors were wrong—it was not tobacco, but tea and coffee that upset me so. During the two months that I have used Postum I have had neither headache or heartburn, my nerrousness has left me, and I have

Gold Stock Mount Whitney Gold Mine is showing better and better values as development progresses. We have invited you before to secure an interest in this coming gold mine before the price of steck advances. This is a mine, not a prospect.

If we interest you in this stock, and if it is as good as we say, you will become a regular client of ours. If we make money for you, you will buy again and advise your triends to buy, and they, in turn, will do likewise. We could not afford to offer any security that was not first-class.

If you have any idle money put it into this gold stock. The facts we state here are provable, historical and incontestible truths. We claim the privilege of verifying every statement.

It takes gold to dig gold, and the way to get gold is in the sale of stock. We have remaining from the original allotment of stock less than \$0,000 shares. When this is sold it will be enough to carry on the development work to completion. We believe this stock will be disposed of in the next few weeks—it will, if you buy and your friends buy. Keep in mind that the money you pay on our stock goes directly into the development of this great property.

go during his three-days stay here, how much money the stores make.

Upon what he learned, he made no comment. Having learned what he wished to know, he went away with the ladies of his party, on a shopping tour, after shoes.

Those who are registered in his party are Lady Laurier, Mrs. Edwards, Miss Contin, R. Bondman, all of Ottawa.

They arrived yesterday morning from Santa Barbara over the Southern Pacific in his private car "Violet" and came to the Van Nuys in the hotel bus.

A TREMENDOUS WORKER A TREMENDOUS WORKER.
Once under the rather frosty exterior, the Premier is said to be a man
of affable charm. It is rare pleasure
to hear him speak either in Parliament
or on the hastings—or as we would
say, the "stump." In French or English he has equal facility—and is superb. He is generally conceded to be
among the first diplomats of the
British reaim.
Sir Wilfrid's health has been impaired by hard and almost ceaseless
work.

Enough Nude Lasciviousness to Wreck Young Lives.

How a knight of the British realm travels "incognito," was demonstrated yesterday by Canada's greatest man, Sir Wilfrid Laurier, who arrived in Los Angeles with the cold wave.

To the reporters, whom he did not wish to meet, he was of about the same temperature.

Sir Wilfrid is the first knight who ever came "incog" to Los Angeles, unless an exception be made of the ill-mannered nephew of Prince Von Bismarck who came here disguised as a gentleman.

One is uneasy and not at all sure what to look for in a nobleman traveling "incog." Romances of the day lead you to believe he may be swap-lead you to believe he may be swap-lead you to believe he may be swap-lead you to believe he may be swap-

as making love to a girl through a brick walk. The most important thing he would say, in a formal interview was: "I came here to rest, I do not wish to talk." He said about the same thing to the Los Angeles Canadians who wished to give him a banquet here. He begged to be excused as he said he did not wish to breag the rule of, his present trip.

During a short walk about town yesterday, however, he talked pleasantly of commopplace topics.

CHILD WIFE LEFT IN SORRY STRAITS.

THERE is a quarter! Have dinner ready at 12:30 o'clock, when I will be back," said Samuel Miller to his girl wife as he kissed her goodby Sunday morning and walked out of his room.

Instead of returning, Miller boarded a train for New York City, whence he came less than a month ago, and left his sixteen-year-old bride alone

dressed female prostitutes. If this begets not crimes against nature, what does it?

During each of two of the aforementioned visits by the newspaper man, from two to seven children were found in each of these places of "amusement." Mostly they were boys, ranging in appearance from 9 to 15 years, several with strapped school books under their arms. Some of them exchanged nickels at the counter for little piles of pennies, and with these they went from machine to machine, josfled by men of many sorts and conditions, and, strange to relate, brushing now and then against the skirts of women, who, after trying a machine or two, hurried quietly away.

Was one of these boys your boy? How shall you know?

The woman cashier at the Automatic Vaudeville was asked:

"Do you have any rule against children coming in here and using these machines?"

"Oh, no," she replied; "they're as welcome as the rest."

At the Penny Arcade the proprietor was asked: "Do you bar boys and girls from here? Are there any restrictions against children?"

"No, sir," he resplied; "we've got stools for them."

Let no shocked mother delude herself into the thought that her boy, or girl, cannot have been drawn into these spider-webs, because the child has not had pennies to spend. Not even the small price of 1 cent need a boy or a girl have to see prostitutes disrobed, on South Spring street. On nearly every one of these picture machines is an electric button. A sign says you are to press it in order to see "what it's like."

One incident may serve to point a moral. It is here faithfully reproduced. Yesterday afternoog, between 4 and 4:30 o'clock, at the Penny Arcade, all little miss seegmingly not more than 7 and a boy of apparently 10 were "doing" the machines together. The girl had no pennies, but the boy held some in his hand. The girl, standing on one of the foot stools, was gazing wide-eyed into one of the several decent machines; the boy had dropped a penny for her, and the pictures happened to be photographs of the streets of Washington Clty

beck.

RUN DOWN BY CAR.

While attempting to cross the tracks at First and Belmont streets last night, George B. Townsend of No. 1865 Council street, an old man past 76, was run down by car No. 120 of the Los Angeles Railway Company's Second-street line, and severely injured. Mr. Townsend had been out fishing and was carrying a basket on his arm. When removed to the Receiving Hospital he could not tell the details of the accident only repeating: "It was on me before I realized it." The man's left thigh was broken, and he sustained bruises about the head and chest. Owing to his advanced age, the injuries may prove fatal.

"trashy." New books of such character are not purchased and old ones are discarded.

Urgent appeal is made for more space. The librarian asserts that properly to shelve the volumes now oft uand would require \$0,000 square feet of floor, whereas the present floor space comprises less than 14,600 square feet. Attention is called to the removal of newspaper flee from the city library to the reading room of the Chamber of Commerce and to the withdrawal of current magazines from the reference rooms. The report asserts that this is necessary in order to secure more room in the library for students who desire to peruse the scientific books in the reference room.

Congratulations are extended to the Council on the ratification by the people of the proposal to erect a library building in Central Park and the hope is expressed that arrangements will be made in the near future for securing funds for the erection of a suitable library building.

The major portion of the report of the Library Board is composed of the annual report of the City Librarian to the Board of Library directors. This report, which is comprehensive in its scope and prepared, with special attention to detailed statistics, is a veritable compendium of information concerning the library and its use by the people. Comparative circulation figures show that there are only three or four cities in the country making more use of the library building worthy of a city possessing one of the twelve great libraries of the country.

A vacancy exists at the present time but if the appointment were to be made now Mr. Wright could not draw pay for the remainder of the month as Mayor's cierk.

FIRST CAUCUS.

Republican Councilmen-elect have passed safely through the ordeal of their first secret session. About the only things accomplished were the selection of the president of the new Council and a partial understanding as

some of the new members were still in knee breeches, will be the president of the next Council. He has confided to some of his Councilmanic friends the first cast of his probable appointments on committees. some of the new men

the commission are sworn to secrecy as to the extent of the new district. One of the first official acts of the present Council was to appoint a special commission of architects to revise the building ordinances. This commission has devoted eighteen months to its labors.

Permission, was yesterday granted by the Council to property owners in Chinatown to connect its sewer with the Aliso-street sewer. The proposal was objected to by Aliso-street residents, who feared that if the Chinatown sewage were to be turned into the Aliso-street sewer the later would be filled to overflowing. City Engineer Stafford said that he had recommended the connection of the Chinatown sewer with that of Aliso street for the reason that the Health Officer had said that the sewer in the Celestial quarter must have an outlet for sanitary reasons and that there was no other feasible outlet.

Before the case was tailed for irial a last effort was made by the attorney for Mrs. Brodt and as he gradually scaled down the hundreds, he was met with a decided negative until the 2000 mark was reached On that hasis McGarvin convented to patch the differences up, and thereupon the case was dismissed. The matter will be represented in the probate division of the court, and if the compromise meets with the approval of Judge Wilbur, as it most probably will, Mrs. Brodt will be paid 3000 in lieu of all her claims against the estate of her deceased friend and employer.

CASTILE'S APPEAL.

SENTENCE POSTPONEDA

gued on the basis of the affidavits to be filed.
Since the conviction of the two brothers it has developed that not very long ago the Castiles had a little adventure at Banning, with C. O. Barker, one of the wealthiest ranchers and cattlemen of Riverside county. Barker had purchased a fine high-bred horse of which he was very proud, and wille showing off its points to some friends, the Castile brothers happened along. Jake sized up the animal and assually remarked to Barker that he had a fine horse there.

"Yes, I have," responded Barker, looking Jake straight in the eye, "and I want you both to keep your hands off him."

CHILDREN ARE HAPPY. TOPORKE MONEY DIVIDED.

TOPORKE MONEY DIVIDED.

Frank Toporke is the man who slipped into the Fralich Hospital and died without his young son knowing anything about it. The father and son had come here from Washinston, where Mrs. Maggie Toporke and seven other children were living. Just why the separation took place has never leaked out, but when Toporke died the Public Administrator took charge of the estate. Then the son loomed up, or rather was found by Mr. McGarvin, and was shocked to know that his father was dead.

The deceased had no money when he went into the hospital, and did the only thing he could do in order to receive the treatment necessary—he made a conveyance of one of his two lots to the hospital authorities. When he died and it became evident that a conveyance under such circumsatness was somewhat informal the hospital at once transferred back the lot obtained in this way, and put in a claim against the estate.

Testerday Judge Wilbur made the order for final distribution of the estate, which consists of the modest amount of \$1370. The widow will receive half of this sum and the cight children will share and share alike in the remainder.

COURTHOUSE NOTES. BREVITIES MISCELLANEOUS.

THE EUBANKS DIVORCE, Joseph Bubanks was yesterday granted a divorce from Laura Eubanks by Judge Conrey on the ground of desertion. Mrs Eubanks was enamored of the goodness of her husband, but she was attracted by another men and felt impelled to go to him. When she first left home she took with her the two children, little ones of i and 8 years, but the husband has now recovered-possession of them.

CRONIN CONFESSED. D. G. Cronin, went before Judge Smith late vesterday afternoon and pleaded guilty to the charge of having burgharized the residence of S. P. Marchutz. He took a lady's brooch and a pair of opera glasses, and when he attempted to pawn the brooch he was arrested and the glass's were found upon his person. Cronin said that he arrested here from Chicago on Thanksgiving and got down to business—the burghary business—on December 3. He was genteneed to two years at Folson.

W. Glein swore to the complaint charging Dement with having assault-ed Reta Portusach on December 9. The girl is alleged to be under legal age, the assault being merely tech-nical. Dement was held in \$1000 bail, and this morning the time for his ex-amination will be set.

MRS. HUDSON'S TRIAL. Mrs. Inez Hudson is on trial before Judge Wilbur on the insanity charge, and a jury will pass upon the question heretofore decided by a commission in lunacy. The prosecution yesterday offered practically the same testimony as that put in when Mrs. Hudson was before Judge Wilbur. The defense will have its in-

NEVADA-SHERMAN.

The Nevada-Sherman game is still on for Christmas Day. It is not thought likely there is anything to the sait Lake-U. S. C. game announced by telegram for New Year's Day. Harvey Holmes is too wise a chap to take on any bunch of dead ones such as the Utah men have proved themselves to be; Colorado beat them 30 to 0 or thereadouts and Stanford defeated Colorado equisity bad. There is more than half a belief that the Indians could best Stanford by two or three touchdowns, so it is hard to see where Utah has a leok in.

Another drop came in the third, for although the favorite Chub won easily, just as many sports that picked this one played Heather Honey and Diamante. This latter one sweat like a harvest hand in August and was as nervous as a cat in a hot oven. It was broadly hinted around that the horse had been given a shot of dope to make him win, but this was probably one of the usual weekly unconfirmed rumors that no one can affirm or deny. In any event the best Diamante could do was to run third to Chub and Jingler, the latter being prominent all the way and finished strong under urging. Heather Honey could not keep up with the others and had nothing left to finish on.

CONEY ISLAND'S STAR FIELD. ENTRIES FOR CENTURY STAKES.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Dec. 12.—[Exclusive Dispatch.] Judging from the list of entries that have been received for the Century Stakes, a star field will be seen at the post when this event is decided at the Coney Island Jockey Club's fall meeting in 1906. With the exception of the crack 3-year-pid Stalwart and Hermis, winner of last year's Suburban, which went wrong early in the season, the cream of the handleap division have been nominated. Among those nominated are Beldame, Oiseau, the crack California filly Tradition, and the colt Waterlight, J. R. Keene's great coits Sysomby, Vontromp, Delhi and Israelite, Whitney's great filles Tanva, Artful, Sandria and Cricket. Ed Alvey, the western turfman, has entered six yearlings, August Behmont three. Newton Bennington three, the Goughacre stables three, E. W. Jewett is represented by Bedowin, Waldeck stable by The Picket. Harry Payne Whitney has ten entries in all.

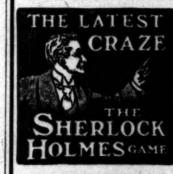

IT WAS NO DREAM

Even Though Nearly Incredible.

"For twenty years I suffered with piles, sometimes being confined to my bed for days at a time. The relief received from doctors, both in the United States and Mexico, was temporary, and more frequently I received no relief; other medicines had no effect; it was a continual drag; I was fit for nothing. I finally tried Pyramid Pile Sure; first application was magical; I could not believe I was awake

magical, I experienced a relief I had not known for twenty years.
"One box cured me, but not believing myself cured I bought two more, and they are still in my trunk. I first used this remedy in July, 1962; HAVE HAD NO OCCASION TO USE IT SINCE. The world should know of Pyramid Pile Cure. I have no words to express is merits." E. A. Leonard, Nueva Calle de San Antonio de las Huertas No. 5, City of Mexico.

Pyramid Pile Cure is in the form of a suppository, which is admitted to be the best form of treatment for piles; it comes in direct contact with the painful tumors and does its work quickly and painlessly, It is sold by druggists generally for fitty cents a package, and there is no other remedy "just as good." Write Pyramid Drug Co., Marshall, Mich., for their little book describing the cause and cure of piles, as it is sent free for the asking.

A marked and increasing dissociation of the sexes between city and country like that in the United States has been noted also in the leading countries of Western Europe. On the other hand, there is a large excess of males in the principal cities of Russia and India, and in Hongkong and Manila. This excess of females in the cities of Western Europe and Eastern United States is probably due mainly to the greater opportunity for women to find employment.

It's snowing to beat the band all the way east of the Rockies, and all the men, women and children in that dreary waste of God-forsaken landscape are likely to be wearing fiannel rags with a little sliced pork around their sore throats. How is it that all these marriages of the Letter kind are between poor foreign noblemen and rich American girls? Women contract the borrowing habit naturally. The woman berself was borrowed, in the first place, in the shape of a rib from Father Adam's side. Yet no one ever suspected that the art could be carried to such a length as has been done by Sister Cassie Chadwick.

MASON OPERAHOUSE. "Her Own Way" is a play recently devised by that wonderfully prolific playwright, Clyde Fitch. It has the ear-marks of Clyde Fitch all over it and all through it. This is tantamount to saying that it is bright, witty, effervescent, full of action, interesting at every stage of the proceedings, ingenious in plot, and by no means destitute of faults. It has much of human nature. If it had not, it would lack in interest it fact, the principal stage of the proceedings in the process of the proceedings in the process of the proceedings. The scene in every sea in their miraculousness in every sea in their than the principal stage of the principal stage of the process in the principal stage of the part, but—what is the use of trying to make us feel that this jolly, whole-souled woman is bad? We couldn't believe it!

Joseph Galbraith may be seen as Dick Brummage, the wonderful detective whose johnny-on-the-spot tendencies recur with amasing increase in their mires of the principal stage of the history of this celebrated the history of the history of this celebrated the history of this celebrated the history of this celebrated the history of the history of the his and by no means destitute of faults. It has much of human nature. If it had not, it would lack in interest; in fact, the principal charm of this play, as it is presented by Miss Elliott and her "coterie" of players, lies in its lack of staginess. The play moves, as all well-devised plays ought to move, with the semblance of actuality, if not the substance.

her "coterie" of players, lies in its lack of staginess. The play moves, as all well-devised plays ought to move, with the semblance of actuality, if not the substance.

This is not to say that the incidents of the play are altogether probable. It is not in fact a chapter, nor a series of scenes, from real life. The author makes many demands upon the auditor's credulity, if we stop to analyse too closely. The limits of the probable are often reached and passed. But one doesn't usually stop to analyse a Fitch play until it is all over. There isn't much time for analysis while the play is in progress, for there's "something doine" all the time.

Come to think of it, there is not much newness of motive in this play. It is the old story (worked over into new form) of the woman tempted by riches to marry a man whom she does not love, for the sake of saving her family from financial roine. Fortunately, the stern father, who is determined that his daughter shall marry the objectionable suitor, is not present in this play. We have had altogether too much of him in drama and novel, and it is to be hoped that he will be given a long and much-needed rest by playwrights and novelists in the future. This hope, however, is expressed with the full knowledge that it will never, never be realised. The stern parent will continue to do his stunt, without a deubt, until the heavens are-rolled together as a scroll and time shall be no more.

The play opens with a little party of children, which is delightful in its naturalness. As a general thing, children on the stage are painfully amateurish, awkward, and uninteresting from the viewpoint of human teresting from the viewpoint of human teresting

viewpoint of art, be they never so interesting from the viewpoint of human interest. But these little ones are well schooled in their parts. They are Philip, Christopher, 'Toots' and Elaine, roles enacted respectively bounded Gallaher, Marjorie Noon, Mollie King and Clara Meserau, and their presence adds a touch of life and naturalness to the picture, which it would be hard to attain in any other way.

As a matter of course, the central figure is Maxine Elliott, in the role of Georgiana Carley. Miss Elliott might properly be called an actress of the lipressionist school. Her action is—or has the appearance of Being—spontaneous, unstudied, personal; the outcome of the impression or impulse of the moment. In the deeper phases of emotion her power is held well in reserve and her methods are judicious. Very likely the business of the role of Georgiana is all studied out in advance, to the minutest detail. Most works of value in any branch of art are necessarily so. But Miss Elliott conveys the impression of spontaneity and of evanescent impulse most admirably.

[Bureau of Forestry Bulletin:] Ex-maive arrangements are being made or an American Forest Congress to be sid at Washington, D. C., January 4. 1995. The congress will be under the auspices of the American Forestry speciation, of which Hon, James Wil-n, Secretary of Agriculture, is the

notified Secretary Wilson of their intention to attend. Among them are
the following presidents of leading railroads: J. J. Hill, Samuel Spencer, Howard Elliott, B. L. Winchell, Geo. W.
Stevens, Russell Harding, Marvin
Hughitt, L. E. Johnson and ColgradHoyt. Practically all the great railroads will be represented by their
presidents, vice-presidents, or chief engineers. Telegraph and telephone companies will also have able representatives present. The lumber interests will
probably be more largely represented
than any other. Each lumbermen's association has the privilege of appointing five delegates, and a long list of
delegates is already on file in the office

CHILDREN'S PRAYERS.

to grief on that rock which has

caused the shipwreck of numerous juvenile theologians; he prayed for a large toy yacht, and did not get it, and declined to pay the slightest attention to the explanations furnished by his mother. Having listened and weighed them carefully he shook his head, over which seven summers had now passed, and said almost regretfully: "I think I am too young to be religious." This simple fact of Jomanding something which is genuinally wanted, and not getting it, has of course been the undoing of many million small supplicants. Bewilderment and vexation are followed by indifference and doubt, mostly, I am assured, from lack of clear and insistent explanation, but I cannot believe this. No explanation, i think is really accepted except one which only to an already complete faith and devotion—viz., that took knows what is best, and does not think it good for the suppliant to grant this particular request. For the guardian to play delity and grant the prayer is not much use in the end.

To say that a boy is not "nice" who does not become serious while being prepared for confirmation is simply ridiculous. I know a dozen boys, clean minded, honorable, truthful and wholly delightful, to whom the rite is on a precise level with an ordinary Scripture class or history lesson. Reverence is not born in these children, and may or may not come to them suddenly later, and then for home reason which no man can tell. The most active belief in the presence of God, the most regular performance of religious duties, can exist without it. Two American friends of mine, aged 10 and 11, say their prayers regularly every night and morning, and learn nymns and texts by the yard, but play the most diabolical tricks on each other while so engaged. The boy's prayers are perfectly serious and real; and God's presence is equally real; for on one occasion when his sister was indulging in the nefarious practice of beating his bare upturned feet with a hairbrush he apologized to Heaven very seriously and soberly. "Excuse me, dear Lord, for a moment, whi

tales Sherlock Holmes finds a tunnel under a street by driving a heavy truck over it. There it was, worked over on the third page.

"The next fickel novel I tackled had worked over The Red Headed League." and so on, clear down the line.

"Anna Katherine Green has been swiped extensively for this purpose. Lately they have been running strong on the old French detective stories. I found that one nickel novelist, more painstaking than the rest, had patched up a number from parts of Conan Doyle, Anna Katherine Green and Gaboriau.

"The increasing literary demands of the country have brought all this about, I suppose. The taste for good reading has grown amazingly, but the hunger for the cheap sensational novel has grown also. There isn't enough imagination to go around, so the publishers of cheap stuff have had to devise a cofficesy scheme.

"I once usked a publisher whose wares have been widely stolen in this manner why he didn't sue for infringement of copyright. He said that this stealing didn't do any real harm.

"The messenger boys and bootblacks who buy nickel novels never heard of Sherlock Holmes, and would never than 5 cents. The only real advantage of a copyright suit would be advertising of that kind would pay him."

SARDINES POISON POUR.

J. D. Simmons of Los Angeles, who is engaged in painting the scenery of the new opera-house here, was afflicted Saturday night by ptomaine poisoning, together with his nephew, 15 years of age, and his two little girls, aged 6 years and 13 months, respectively. The Simmons family, consisting of the husband, wife, two children and the nephew, are residents of Ventura temporarily. They occupy a house on Ash street, near Meth. Saturday eyening the family had sardines for dinner. Of these Simmons atte freely. The nephew and the oldest of the children also ate of them, the baby only sparingly. Mrs. Simmons did not touch the sardines and is the only member of the family who escaped the poisoning. SARDINES POISON FOUR.

which developed among those others three hours later.

When the poison began to assert itself the members of the family were taken violently with convulsions. Dr. Cunnane was called, and upon investigation decided the trouble was in the sardines, and that it was ptomaine poison in its severest form. The doctor worked all night with his suffering patients, and it was not until twenty-four hours had passed that he concluded his efforts availed. The family still felt the effect of the dose yesterday, but the doctor pronounces all well today. Simmons was at work today.

Simmons is well-known among theatrical men in Los Angeles, where he has been a scene painter for some time. He was last employed at the Casino.

PEPPERY BASEBALL.

There was peppery baseball here yesterday when the local team, with Charley Hall, the Siwash, ag pitcher, went up against the Hamburgers of Los Angeles, containing a good sprinkling of professionals, and with Leroy, the New England leaguer, as pitcher. Ventura beat the visitors 2 to 2, but had hard work doing it. The visitors made their first run in the fifth and their last in the eighth, when they bunched it for three. Bert Johnson knocked a little grounder to third, which the Hamburger baseman threw twenty feet above the first baseman's head. This sent Johnson to third, Smiley walked and stole second. Bowman came up and knocked a three-bagger sou' sou' west of center and made his third, bringing in the other two. Then he managed to steal in himself, winning the game. Both Hall and Leroy pitched splendid ball. The same number of hits were made off each, while Leroy walked but one more man than Hall, though neither walked many. A large crowd turned out. Keller was umpire. Next Sunday the Venturas will again play the All-Professionals of Santa Barbara. Hall will pitch for the home team, while the visitors will have one of the league pitchers now resting in Los Angeles from summer duties.

far as is known. It goes by the cuphonious name of Peijoa Selowains and has always proved as hard to grow as to pronounce. It is a native of thrugany and Brauti and is quite popular in the Faris markets. It has been raised to a certain extent on the shores of the Mediterranean Sea, also. The fruit is larger than a plum and in taste is a composite reproduction of a pineaprie, strawberry and guava, according to Way who thinks that it can be raised here to an extent that it may be of commercial value.

BROWN'S FLATS VOLCANO.

LORDSBURG, Dec. 12.—Brown's Flats is thought by many to be the crater of one of those extinct volcanoes that once formed a continuous chain from Cape Morn to Kamchatka. Whether this be as or not, it has caused a volcano to burst forth among the Socialists of this district.

Bone time ago J. B. Camp, the owner, offered to sell Brown's flats to the Socialists for \$5000 (his previous price having been \$20,000.) on condition that the Socialists build a sanatorium there for the worn-out wind-jammers and agitators of that party. The scheme had been taken in hand successfully, and when everything was ready for the deal to be closed they cisim Campraised the price to \$10,000 and has since withdrawn the property from the market.

The Socialists are very wroth. They

and on the street, have approximated 150,000 shares. The price of these thas ranged from 22 to 21 cents, which is considerably higher than the same shares sold a few months ago.

There is a popular belief that these stock trust certificates are being bought up by the Associated people themselves. At present it is generally thought that a majority of the interests in the combine are held by a few, the directors themselves and the Southern Pacific interests.

The Continental is another stock that is being bid on quite actively and it is believed in many quarters that the Associated is seeking to control this property and to unite it with its other Kern River holdings.

READY TO SELL OIL.

READY TO SELL OIL.

The Independent Oil Producers' Agency has issued a circular letter, signed by President M. V. McQuigg and Secretary A. H. Liscomb, in which it is stated that the association now will be ready to deliver oil by January, 1, 1905. This circular was issued immediately after the recent conference of the executive committee in San Francisco, and from the text it is interred that some definite arrangement has been made which it is not yet desired to make public. The total production at Kern River outside the Association is hardly more Jhan 150,000 barrels a mouth. Some of the Association's oil is at Sunset.

BROOKLYN PILGRIMS IN ROME. BROOKLYN PILGRIMS IN ROME.

ROME. Dec. 12.—The American pilgrimage led by the Rt. Rev. Charles
E. McDonnell, bishop of Brooklyn, N.
Y., was received this morning by the
Pope in the Clementine Hall of the
Vatican. Bishop McDonnell presented
the Pontiff \$5000, the Peter's pence offering of the Brooklyn Diocese, and
Mgr. John I. Barrett, the bishop's secretary, presented the Pope \$12,000, the
offering of the priests of the same diocese. The Pope thanked them warmly,
saying he was most thankful to the
piligrims for coming to Rome from such
a great distance, and blessed all of
them and their families, giving the
priests present-permission to extend
the papal benediction to their flocks.
